

## Script for N6NFI Repeater 9 A.M. TALK NET

*NOTE: Please freely distribute this to any ham that desires a chance to run this net.*

*Version: December 10, 2008, by Pink, KG6ILA, Kristen, K6WX, Steve, KG6EVZ, & Peter, K6WEB*

---

Good morning! This is <<call sign & name>>, net control for this morning's 9 A.M. Talk Net. This net is held Monday through Friday mornings on the N6NFI repeater in the San Francisco Bay Area and is open to all interested hams. We are not affiliated with any club, do not have a set topic and especially encourage new hams to check-in and ask questions.

THIS IS A DIRECTED NET. Please pass all traffic (i.e., communication) through Net Control. Is there any emergency or priority traffic this morning? (*Listen...*). If an emergency should arise, please say "BREAK - EMERGENCY" for immediate Net Control recognition. *Announce major upcoming radio nets & events.*

We start the Talk Net with **Early check-ins**. These are ONLY people that want a quick check-in and do not plan to be here for discussion and succeeding rounds during the Regular part of the net. If you plan to be here for most of the net and want to be called in succeeding rounds, do not check in early, wait and check into the regular part of the net. As a courtesy and for FCC compliance, please begin and especially end each transmission with your call sign. This repeater incorporates a 90-second time-out timer. Let the repeater drop and leave a courtesy pause before speaking. This is <<call sign & name>>, net control for this morning's 9 A.M. Talk Net, who would like an **Early Check-in?** *Write call signs down and information to share in the Summary. When comfortable, or about 10 A.M., wrap-up Early Check-ins and move to the Regular part of the net.*

This is <<call sign & name>>, net control for this morning's 9 A.M. Talk Net. We now begin the **Regular** part of the 9 A.M. Talk Net by calling the **Regular Roll-call** for a quick **Check-in Round**, then invite anyone else listening to join. Everyone who checks in from this point on, unless they state otherwise, will be called again in chronological order for succeeding rounds. As a courtesy and for FCC compliance, please begin & end each transmission with your call sign and let the repeater drop for a pause before speaking. First on the **Regular Roll-call** is...

KR6DD	Andy
KM6WP	Mr. Mike
KG6ILA	Pink (Tucson)
WA2CFN	Bob
K6WX	Kristen
KG6RLG	Ron
KG6KKP	Ed
KI6DAR	Doña
K6WA	Dave

Ask for any additional **Regular** check-ins.

**Call every one who checked-in (except Earlies) in chronological order for Round One.**

Ask for additional check-ins then start **Round Two** (if time permits).

Ask for final comments, or questions.

Give a brief **Summary** of today's net.

Special thanks to the owners and operators of the N6NFI repeater for allowing us to use it for this net, and to all who participated. We meet Monday through Friday at 9 A.M. Sign-up for our e-mail list and learn more about the 9 A.M. Talk Net at our web site: [www.9amtalk.net](http://www.9amtalk.net). Wishing everyone a good day (and weekend if Friday), this is <<call sign & name>>, closing the 9 A.M. Talk Net at <<hh:mm>> Pacific Time and returning the frequency to general-purpose use.
